Hi Lisa and Michele,

Attached is the draft checklist for Tejon. A couple of notes:

- In general, we found the application to be a bit “vague.” In some cases we don’t have any specific requests, but we see a general need to provide any additional data that may be available to back up what is in there and perhaps make a stronger case for the record.

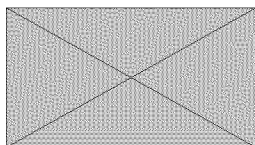

- They plan to rely on operational controls; we just want to be sure you are aware of this.

Please let us know if you have any comments or questions.
